# WELCOMES THE ANDEAN PAQO'S

## 22-24 October 2025 | Netherlands

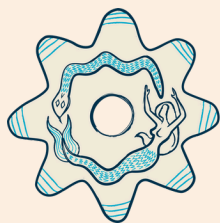

---

From the high peaks of the Andes to the heart of the Netherlands, we welcome the Don Claudio, Don Hernan and Maestro Luis the revered medicine keepers and spiritual elders of the Inca tradition. Traveling from Cusco, Peru, they bring the living wisdom of the Apus and Pachamama carried in an unbroken lineage for generations.

This gathering will offer a sacred Andean teaching workshop day and two days of individual healing sessions and initiations. This is a true rare chance to receive authentic blessings, energetic transmissions, and guidance directly from the Paqos themselves. These rites open the heart, deepen connection to nature, awaken the soul's memory and evolve deeply the souls purpose.

Such opportunities are rare in Europe. To sit in ceremony with the Paqos is to enter a living tradition, where ancient prophecy meets the present moment. This is not just an event it is an invitation to profound transformation and healing. A seed that will continue to grow within you long after they return to their mountain home.
